

Declaration of Compliance

This declaration of compliance applies solely to the product identified herein, in the exact condition in which it was originally introduced to the market. Any subsequent additions, modifications, or handling are explicitly excluded. This declaration shall no longer be valid if the product is used in a way that does not align with the applicable regulations or with the usage conditions outlined in Modutech's technical documentation. The product is intended exclusively for repeated use.

We hereby declare that the product specified herein complies with the following food contact regulations.

MODUTECH Grip Top Modular Belts, Blue SEBS-Based TPE on Blue PP molded modules and accessories

EU

Regulation (EC) No 1935/2004 on materials and articles intended to come into contact with food. Specifically, this refers to the relevant Articles 3, 11(5), 15 and 17.

Regulation (EC) No 2023/2006 on good manufacturing practice for materials and articles intended to come into contact with food as amended. This product has been manufactured in accordance with the relevant requirements of that regulation.

Regulation (EU) No 10/2011 relating to plastic materials and articles intended to come into contact with foodstuffs as amended.

This product meets the relevant requirements of Regulation (EU) No 10/2011 as amended and is applicable for direct contact with:

- dry, aqueous, acidic, alcoholic and fatty or oily food types according to Annex III, table 2
- up to 30 minutes contact time at up to 60°C

Not for fatty / oily food

The raw materials used comply with the requirements of this regulation.

This product does not bring about an unacceptable change in the organoleptic properties of food.

This product contains substances with restrictions (SML, SML(T) or QM) and/or specifications as set out in Annexes I and II to this Regulation. All restrictions and specifications are met if the product is used under the conditions specified in this DoC.

Above mentioned product does not contain dual use additive(s) acc. to Regulation (EC) No 1333/2008 (food additives) and Regulation (EC) No 1334/2008 (flavourings) in their current version.

Testing of overall migration, specific migration and other applicable restrictions (maximum permitted quantity, primary aromatic amines, etc.) was performed according to this regulation as amended.

Ratio of food contact surface area to volume used to establish the compliance of the article: 6 dm²/dm³

Food simulants and migration conditions used for migration tests:

- A (10% Ethanol) OM3, 2 h at 70°C
- B (3% acetic acid) OM3, 2 h at 70°C
- D2e (95% Ethanol) OM3, 2 h at 70°C
- D2i (Isooctane) OM3, 0,5 h at 40°C

USA

FDA 21 CFR sections 177.1520 Olefin polymers, 177.1810 Styrene block polymers and 178.3297 Colorants for polymers

This product meets the relevant requirements laid down in this regulation and is applicable for direct contact with:

- dry, aqueous, acidic and alcoholic (<8% alcohol) food as listed in 21 CFR 176.170(c) table 1, food types I, II, IV-B, VI-A, VII-B, VIII

Conditions of use D (hot filled or pasteurized below 150°F) through G (frozen) as listed in 21 CFR 176.170(c) table 2

Not for fatty / oily food

BPA-Free

This product is suitable for direct contact with food and do not contain Bisphenol A (BPA).

The information herein contained represents an extract from an analysis certification issued by SGS, Accredited IAS laboratory with report 42540824 dated 01.08.2025, 42540918 dated 08.09.2025, TR2668125 dated 12.09.2025.
